

# Lactation Space Solutions

Mamava® lactation pods give working parents easy access to a private, comfortable space to pump or breastfeed at work. You get a quick, cost-effective way to meet workplace laws that require a dedicated lactation area—without reallocating valuable space.

## Here's why Mamava is a smart choice compared to building your own lactation space.

Consideration	Mamava	VS	Build your own room
 <b>Build time</b>	A prefabricated solution assembled in a few hours.		Variable construction timelines.
 <b>Installation</b>	Ready for use the day it's delivered.		Requires permitting, zoning, and electrical hardwiring.
 <b>Smart access</b>	Free app provides wayfinding, autonomous access, occupancy status, duration notification, and vacancy alerts.		Federal law requires locked-door privacy and easy access.
 <b>Furnishings</b>	Built-in seating, lighting, table, mirror, locking door, and outlets.		Requires outfitting a new space.
 <b>Mobility</b>	Moves easily on retractable caster wheels.		Fixed and permanent structure.
 <b>Space</b>	Provides accommodations without reallocating rooms, closets, or offices.		Takes away square footage from your space.
 <b>Cost</b>	Extensive product line customized to meet your needs.		Variable. Average cost is 20% to 50% more than a Mamava solution.

# Mamava® Lactation Suites
